

Budapest VIII. district

68 800 000 HUF

The 64 sqm apartment with balcony on the 2nd floor of the city centre, shown on the photos, is waiting for its new owner.

On the side of the condominium facing Baross Street there is a huge parking lot, on the side facing Losonci Square there is a park, a playground and outdoor sports facilities.

Entering the apartment, you are welcomed by an L-shaped corridor (where you can also place a built-in wardrobe), from which you can find a separate toilet and bathroom (with bathtub) on the side, and the dining room-living room opposite. To the left is the kitchen, which can be converted into the dining room/living room, and to the right is the main bedroom with balcony. The living room leads to the second bedroom.

The kitchen and dining-living room have windows overlooking the parking lot and Baross Street, while the two bedrooms have windows overlooking the park and playground.

The property is heated by a central heating system with adjustable and disconnectable radiators, which ensures an optimal temperature in winter with absolute minimum consumption.
